

Farm Science Review

Herrick Archives Building S 103/06

Additional buildings constructed for the 1980 Farm Science Review are as follows:

S 103 - A 54' x 81' building erected and owned by Norton Buildings, Inc. Replaced Building S 72 on lots 49 and 50 in early summer of 1980. Photograph X 25207.

S 104 - A 40' x 72' building erected and owned by Umbaugh Pole Building Co. Replaced Building S 86 on Lots 218 and 219 in summer of 1980. Photographs X 13413 and X 13414.

S 105 - A building erected in summer of 1980 and owned by Seven Limers, Inc. Replaced Building S 87 on Lot 355. Photographs X 13410 and X 43411.

S 106 - A third grain holding bin erected in 1980. Owned by Ohio State University. Photograph X 13412.

See map below for locations of all grain holding bins (S 38, S 88, S 89, and S 106).

See S 85/SO for a map showing lot locations.

March 4, 1981

ADDENDUM NO. 1

Immediately after the 1981 Farm Science Review, Building S 103 (Morton) was removed, because it was in the clear zone required to be kept free of buildings for the safety of aircraft using Don Scott Field.

September 29, 1981

ADDENDUM NO. 2

Building S 104 will probably be removed by May 1985, but there is a possibility that it will be acquired by the University. Building S 106 remains.

Building S 105 was removed sometime between the close of the Farm Science Review in September 1981 and mid-summer 1982.
